Today's world requires caution regarding our children. For this reason, it is necessary that you understand the Dance Shoppe provides the service of dance instruction only. We are only responsible for your child when they are inside the dance room. Parents are responsible for their child in the waiting areas, and on or off the Dance Shoppe property between classes.

1. A parent or adult chaperone should physically bring your child into the Dance Shoppe and not just drop them off out front. Parents assume responsibility for their child's safety.
2. A parent or adult chaperone should physically take your child from class, and not have them wait in the waiting area or outside the studio.
3. Parents must decide whether to allow their child to walk or drive away from the Dance Shoppe. Parents assume responsibility for this decision and its enforcement.
4. Parents must decide whether to allow their child to leave the Dance Shoppe and property, and ride with another student or parent during their break.
5. Parents with children that drive must decide whether they are allowed to drive off the premises during their breaks, and whether they can take passengers.
